WHITEFIELD

INT'L COLLEGE

(Affiliated to TU)

Wel come

to the college..

Whitefield International College, an outstanding center of knowledge and academic excellence, was established in 2053 under the management of Raktakali Education Foundation (REF) established in 2037 B.S. with the mission to provide students with higher level education. Whitefield International College is dedicated to provide upto Bachelor level education. Whitefield has been successfully running Bachelor of Business Studies (BBS) and now has been added Bachelor of Computer Application (BCA) affiliated to Tribhuvan University (TU).

Whitefield is a unique institution designed to disseminate quality education to students. Enriched with almost four decade of experiences in the field of education beginning right from school level to Bachelor level with wonderful and meaningful contribution to the society have proven it as a centre of educational excellence as well as one of the foremost education institutions in Kathmandu. From its inception, together with furnished and comfortable classrooms, fully equipped library with books and journals and ample learning opportunities and suitable academic programs in its own corporate building, college enjoys full support and patronage

of the parents, well-wishers and students.

We are well aware of the fact that true education must not limit itself to completion of syllabus or acquisition of Degree. It should, instead, aim at the development of complete individual, who can lead the humanity on a road of continuous achievement. Whitefield believes that each student possesses a unique combination of multiple intelligence and qualities. Students differ in their preference to individual learning styles so, here the delivery methodology is student-centered and includes active, experiential, supportive and participative learning activities.

Together with faculty members having substantial academic and industry experiences with a flair for teaching, students at the Whitefield are provided with the best possible enabling environment for teaching-learning processes that must be expected from a contemporary colleges. To ensure all round development of our students and extend job-oriented practical education we'll orient your personality to suit the desired job profile through sustained exposure to extra-curricular and Personality Development Program.

Mission

The mission of Whitefield is to work towards establishing it as a reputed institution in terms of its excellence in quality by imparting international standard education for the students. Whitefield strives to provide qualitative education for the social, intellectual and personal transformation of students. The College is committed to deliver teaching & learning of the highest standards that is modern, pragmatic and effective.

Vision

To be a leading college for academic excellence that will be the foremost choice of students in Nepal. To develop it as a centre with all its excellence for knowledge, skills and applications of established and emerging areas of Management & Information Technology to address the dynamism of the changing world and related sectors.

Goal

Goal focus on the core business of teaching and learning. Co-Curricular: The objectives associated with this goal aim to empower students to branch out and enrich their learning.

Support: The objectives associated with this goal aim to underpin the institution in order that it might continue to provide the very best for our students.

Student Centric Activities

WIC believes in student centric learning approach which begins with the formation of the Student Council. This council makes sure that all the students in the college participate in various programs directly/indirectly. Student council also ensures a proper team work and effective coordination between the students and college administration.

Regular Assignments/Assessments

Regular assignments ensure smooth learning process. All students are required to complete the assignments within the given time frame.

Internship

To convert learning in to practice, WIC assists students through internship in their interested field within various renowned corporate and industrial sectors.

- 4 Student-oriented teaching methodologies
- 4 Additional classes for the needy students
- 4 Various scholarships on merit.
- 4 Provision of hygienic, well-managed cafeteria
- 4 Well-equipped labs and resource center (library)
- 4 Various co-curricular activities

Message From The Principal

Dear Students,

We are bound to generate skilled manpower that could face and reform the global challenges. For this, reformation in our education is a must, in all aspects and approaches, the nature of curriculum, course of study and syllabus. Drastic changes in methodology are mandatory so that we could instantly adopt the new technology in the form of internet, e-mail and distant education. The practical education mainly for the utilitarian purpose, not for the theoretical pursuit only, should be incorporated in the entire system of education. So that, our products can cope up with the burning problems and challenges being faced the world. It would also help the students for the career placement. For this, we also apply collaborative and student-centred approaches in our delivery of education.

There are innumerable aired materials through different modes. Our students should be able to take those information to enhance their power of competition & leadership with the rest of the world. It could also enhance their self-pace to promote individual learning.

WIC is committed to adapt the changes and reform our educational delivery to boost all-round development of the students through project oriented technique so that they will be well prepared theoretically and practically to deal with any competition.

Paras Shrestha

BCA

Bachelor of Computer Application

It is a 4 years (8 Semesters) degree. The 4 years program in computer application has been started with the objectives to provide qualified computer software developers, IT Professionals having wide range of knowledge in the technical field. Students learn to solve computer based problem of different types of business house, corporate sector and industries.

WHY WIC BCA?

Sincere efforts are directed towards exposing our students to the real time working environment. After all, we believe, one should start his/her career as an executive, not as a trainee. For this, be prepared to be in an institution where the optimal level of focus will be on enabling your hopes and unfolding potentialities. Together we will do best to be complete citizens of the world via the platform of WIC BCA in the field of software developers, IT Professionals, system analysis, system managers, project managers, database administrators, system designer and programmers.

Teaching Pedagogy

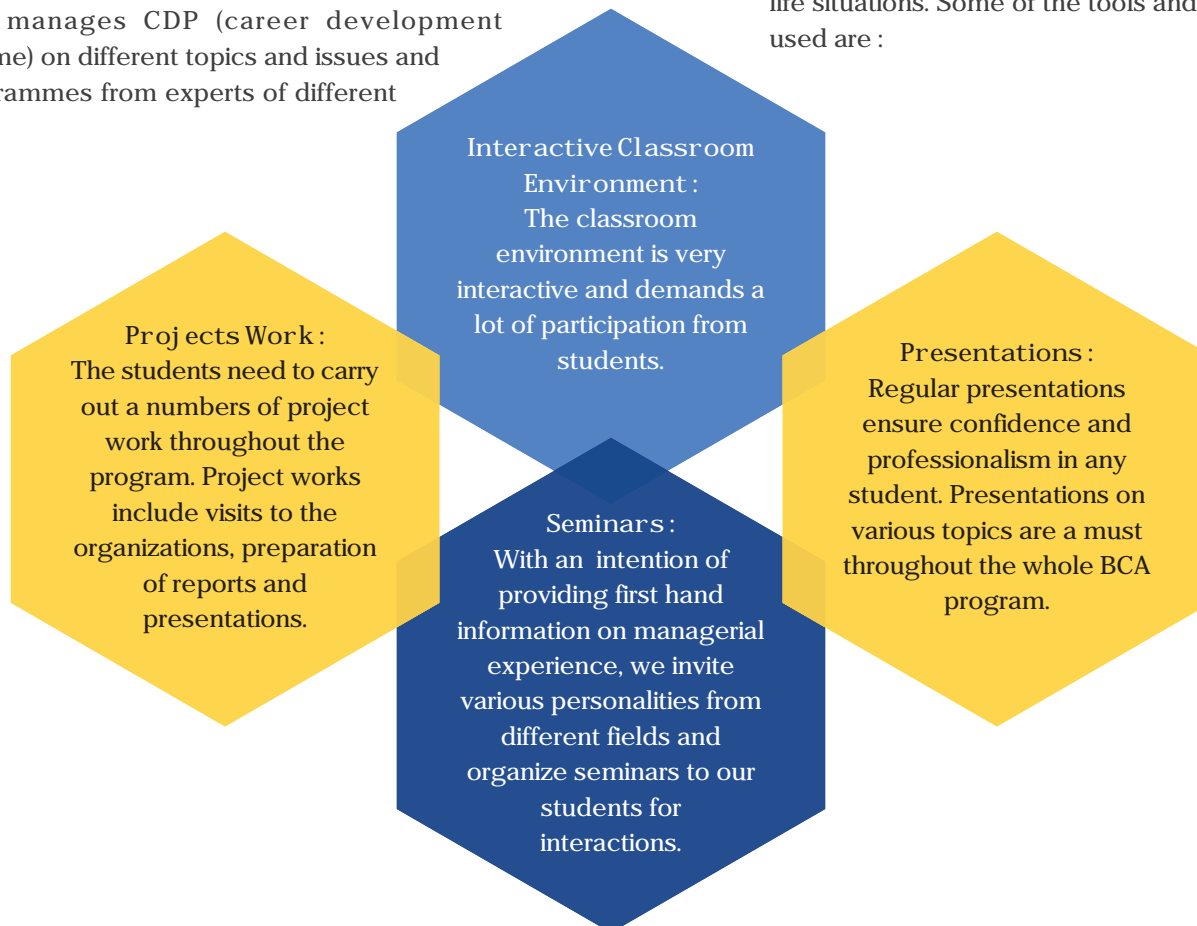

The heart of Whitefield Int'l College is its enviably imitable teaching pedagogy. In spite of sound theoretical lectures, we provide strong practical skills almost equal to global standard. Our graduates would be capable enough to follow the changing global pace of working environment and manage the human capital with the following teaching pedagogy:

- 4 teacher-supervised self-study
- 4 classroom discussion and interaction
- 4 seminars
- 4 field visits and report writing
- 4 case studies and presentation

Besides classroom teaching we focus on the career of every enrolled student. Personal record-keeping will be done besides the routine-classroom teaching. Whitefield International College manages CDP (career development programme) on different topics and issues and talk programmes from experts of different

Learning Methodology - Practical Learning Approach

WIC believes in practice based learning system. Various tools and techniques used by our experienced faculties facilitate the students to gain practical experience on various related issues. These tools and techniques provide students with an opportunity to apply their knowledge in real life situations. Some of the tools and techniques used are :

Group-Work

Our entire philosophy emphasizes on the importance of teamwork. That's why we put our highest priority on team based learning system, where all the students are required to interact with each other to complete assigned tasks.

Co-curricular Activities

For the students mental rest and to stay physically fit and healthy, WIC organizes different academic and non-academic co-curricular activities.

Academic co-curricular activities : Education tour, debate competition, quiz, essay writing competition etc.

Non-Academic Co-curricular activities : Sports events of football, basketball, futsal, handball, cricket and other indoor games.

Info Centre (Resource)

We have a rich library with a wide range of books on relevant subjects. It also serves journals and magazines required for the students. The students are encouraged to avail the facilities of the library to the fullest.

Centralised Methodology

We have adopted modern teaching learning methodology with students centered approach of conducting classes. Teaching learning activities are carried out under qualified and experienced faculty members with the use of necessary audio-visual aids.

Practical/Field Study

WIC has link up at various corporate sectors & industries for the practical study to our students; that would create vigorous relationship in among students, entrepreneur and employees.

IT Support

Whitefield has an Ultra Modern computer lab with a sufficient number of computers and other accessories. The motive is that the students should be familiar with the modern technological innovation. Any time internet access is available.
